Wait, You Offer That?

Mobile Wallets

Mobile Wallets allow you to add your Trax debit/credit card to your mobile wallet. This means you can pay without swiping or inserting your card!

Our cards can be added to Apple Pay, Android Pay, and Samsung Pay.

Simply open the app on your phone, select your Trax card, and hold your mobile device near the payment terminal.

Your actual card number is never shared with the terminal, instead the Mobile Wallet creates a random series of numbers, called a Token, to transmit payment. This means Mobile Wallets are a safe & secure payment option!
